CHRISTINE MAE YUNUN

Backend-Focused Web Developer

📞 +63 929 369 6884 · 💼 Christine Mae Yunun

✉️ christineyunun@gmail.com · 🐙 @chrztyn

PROFILE SUMMARY

Highly passionate backend-focused web development student with experience in system logic, database management, and RESTful APIs. Eager to build efficient, scalable applications and applying technical skills to real-world projects.

SKILLS

BACK-END

- PHP, Node.js, Python, Java, MySQL, MongoDB, RESTful APIs & CRUD Express.js

FRONT-END

- HTML, CSS, JavaScript, Angular, Flutter, Bootstrap, Tailwind, and Vue

TOOLS

- GitHub, Postman, XAMPP, Figma

PROFESSIONAL SKILLS

- Problem-solving & debugging
- Collaboration & teamwork
- Attention to detail
- Adaptability & eagerness to learn

PROJECTS

SplitSmart - Web App Bill-Splitting System

Tech: Node.js, Express.js, MongoDB
- Built a web app that automates group expense tracking
- Designed RESTful APIs and database architecture
- Implemented authentication and CRUD operations
- Collaborated with a team using agile workflow

Non Ta Mangan - Restaurant Picker & Rating Web App System

Tech: PHP, MySQL, JavaScript
- Developed "spin-the-wheel" feature for restaurant selection
- Integrated rating system and user account management
- Worked collaboratively within a team to deliver a functional web application

Pelikula – Movie Review & Rating Web Prototype

Tech: HTML, CSS, JavaScript
- Designed a static web prototype for browsing, rating, and reviewing movies with a focus on UI consistency and responsive layout.

EDUCATION

BACHELOR OF SCIENCE IN INFORMATION TECHNOLOGY – with Area of Specialization in Web Development
- Holy Angel University [2023 - 2027]

EXPERIENCES

CODE GEEKS - Vice President [2025-2026]
- Spearheaded club strategy, events, and mentorship programs, boosting member engagement.
